Re: Midwest FieldTurf and FieldTurf XT Comments

8/21/07

Dear Mr. VanHecke,

I wanted to drop you a note regarding the new purchase, installation, and use of our new FieldTurf XT synthetic field.

**Presentation:** The gentlemen from Midwest FieldTurf put together a very professional presentation on the various products that they have available through FieldTurf. It was very informative, professionally done, and we were able to ask many, many questions that came up during our research process before choosing their product.

**Installation:** Elkhorn Public Schools chose Midwest FieldTurf because we felt that they had the best product on the market. There are others that were less expensive, but we chose FieldTurf because of our own research, because of the recommendations that we received from other schools that have FieldTurf, and the installation process by Midwest.

**Base:** We found that the quality of your field is dictated by the base it sits on. Nemaha Landscaping was used on our field, and they did a great job for us.

**Turf:** FieldTurf XT, installed by Midwest FieldTurf. Great job, hard workers, professionally installed. They really got after it!

**Football Coaches:** Initial comments are, “We love it”, “No more uneven surfaces”, “We can use it everyday with no worries”.

**Soccer Coaches:** “Can’t wait to get on it” is heard often.

**Band:** “We are excited to get to use the field”.

As you can see, we are very, very happy with the entire process of the FieldTurf XT product that we have. We have additionally worked with Midwest FieldTurf on the purchasing of the needed equipment for the routine maintenance that is required.
